

EMPOWERING COMMUNITIES FOR A HEALTHY FUTURE

# Research Priorities for Research- Mental Health

Dr. Stephen Mulupi

8-5-2024

# Mental health research- disrupt the vicious cycle of neglect

# Research Priorities

**Financing-** step up *domestic financing*, persuasion of social & economic value  
competition with other diseases

**Meaningful** involvement of youth- who is deciding what is important?

“You cannot shave me in my absence”

Develop contextually relevant tools; vocabulary for mental health

Easy comparison; we talk about same thing

# Priorities

- Mental health & technological changes- communication & mobility

(*Dis*)information, consumption of harmful cultural goods

Integration of mental health in routine care- how?

- Organization of health service delivery (Kenya's informal settlement)
- Mapping community health resources; gaps (*dangers of medicalization*)
- Health economics- *-costing* studies.
- Youth-friendly- models- fight *stigma*
- Intervention research-Parenting for adolescents

# THANK YOU
